Profile

Introduction

We Global Bellows & Products are reputed organization affianced in Manufacturing and Supplier of a qualitative assortment of Rubber Bellows, Teflon Bellows, Leather Bellows, High Canvas Bellows,

PVC Bellows, Nylon Bellows, Polyster Bellows / Expansion Joints, PTFE / Teflon Coating & Lining and many more.

Using the latest manufacturing technology and high grade raw material, we ensure that our products stand tall on all quality parameters. Owing to technological brilliance and several years of experience.

We have been able to offer customized and tailor made products as per the specifications of our esteemed clients.

Located at Vadodara (Gujarat, India), We have constructed a state-of-the-art infra structural that assist us to accomplish the different requirements of the clients in a timely manner.

Besides, we are constantly gaining clients across the nation owing to our ethical business policies, easy mode of payment, positive records, excellent logistic facility and punctual delivery of the rubber components.

We manufacture these Bellows components with high precision by making use of top-notch quality raw material and advanced technology. Provided rubber components are widely demanded in automotive, electrical, railways and many more industries. These Bellows components are appreciated by the clients due to their excellent strength, precise dimensions, smooth surface, heat resistance, durability and easy installation. Keeping in mind the different choices of the clients, we provide these Bellows components in plenty of sizes, dimensions and shapes. Apart from this, our valued clients can avail these Bellows components from us in large quantity within promised time frame at most reasonable rates.

Owing to varied industrial expertise, every member in our team is getting the opportunities to improve the brand competency by rendering well timed services.

Aim/Mission/Vision

"Global Bellows & Products realizes the importance of binding itself through a well-defined set of principles applicable across all levels of the company.

Our principles are as follows:

- To continue as a highly respected global company
- To become a leader in the rubber products manufacturing industry
- To sustain our reputation for providing customer delight

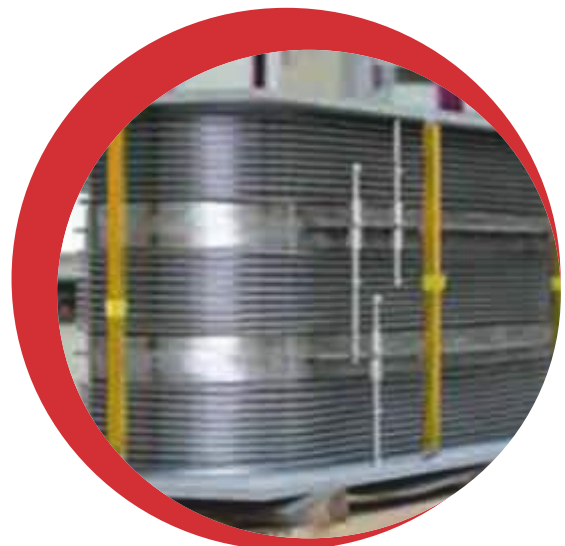

The company has been maintaining a pacesetter for the future times. Companies main concentration is totally on the development of technical support quality product for the international and Indian markets. Companies aim is to achieve the goal of the nation and by taking our country to one of the most subsidized and industrialized zone in the 21st century. The company is also maintaining a total quality management programme.

Why us?

We are highly acknowledged in the market due to our premium quality range of rubber components, punctual delivery, ethical business policies, quality-centric approach and reasonable rates.

Due to the following reasons, we have been able to carve out niche in this domain:

- Technical expertise
- State-of-the-art production facilities
- Well equipped warehouse

Global Bellows & Products

Rubber Bellows

We are a leading Manufacturer of rubber bellows expansion joints, neoprene rubber bellows, butyl rubber bellows, epdm rubber bellow, rectangular rubber bellow and square bellows from Vadodara, India.

Butyl Rubber Bellows

We are among the preeminent names of the industry that manufacture, export and supply a massive assemblage of Butyl Rubber Bellows.

Offered assortment is manufactured in accordance with the predefined industry guidelines.

EPDM Rubber Bellow

Our company is engaged in manufacturing, exporting and supplying EPDM Rubber Bellow that is made in accordance with the set industry standards. EPDM rubber is used for manufacturing these bellows. Owing to the supreme strength, longer service life and reliable performance.

Hypalon Rubber Bellows

Backed by a team of experienced and skilled professionals, we are involved in presenting an extensive compilation of Hypalon Rubber Bellows. Due to the excellent tensile strength, longer service life and reliable performance, these bellows are massively acknowledged in the market.

Industrial Rubber Bellows

We are considered a trustworthy name in the business, which manufactures, exports and supplies Industries Rubber Bellows. Our customers place immense demands of the range, as these are capable of absorbing heat induced expansion or movements. Owing to the improved thermal stability, these are widely acclaimed.

Neoprene Rubber Bellows

Being one of the pre-eminent names of the market, we are involved in proffering an unlimited compilation of Neoprene Rubber Bellows. Supreme quality neoprene rubber, obtained from our reliable and dependable vendors, is used for making these bellows. Our precious patrons can obtain these at market leading rates.

Silicone Rubber Bellows

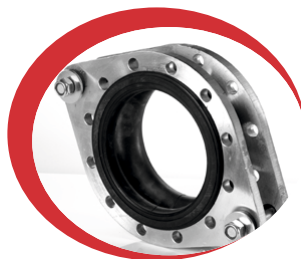

To meet the diversified requirements of our customers, We are engaged in offering Silicone Rubber Bellows.

Used specifically in various industries such as power generation, chemical, water treatment plants and several others, these bellows are highly demanded.

Spring Loaded Rubber Bellows

We are among the reputed names in the industry for manufacturing and supplying Spring Loaded Rubber Bellows. The offered bellows are ideal for protecting machine parts from damages during operation and offer hassle-free operations for a long period of time.

Global Bellows & Products

Fabric Bellows

We are Leading Manufacturers of high temperature fabric bellows, ceramic fabric bellows, rubber coated fabric bellows, industrial rubber coated fabric bellows, fabric bellows and glass fabric bellows from Vadodara.

Aluminized Fabric

Supported by an adept team of professionals, we provide an exquisite collection of Aluminized Fabrics. These fabrics are made using high quality fiberglass that is naturally fire retardant, and is laminated with the aluminum foil, which reinforces the FR property and also helps in reflecting away the heat.

Ceramic Fabric Bellows

Being one of the eminent manufacturers, suppliers and exporters, we are engaged in presenting Ceramic Fabric Bellows. Manufactured in adherence to the predefined industry, these lightweight and durable bellows are immensely popular among our patrons.

Fire Retardant Fabric

All our fabrics are widely appreciated for their attributes these posses.

High tearing strength
Smooth texture
Resistance against fire
Water Repellant / Waterproof
Light Weight

Glass Fabric Bellows

We are among the recognized names in the industry for manufacturing and exporting Glass Fabric Bellows. The offered bellows are extensively demanded in a wide range of industries including cement, food processing and pharmaceutical for the protection of precision parts of machines against operational damages.

High Temperature

We are among the pioneers in the industry for manufacturing and supplying High Temperature Fabric Bellows for our revered patrons.

The offered bellows are extensively used in hot air furnaces for protecting the inner parts from wear and tear.

Industrial Rubber Coated

We have set a benchmark in the industry for manufacturing and exporting Industrial Rubber Bellows. The offered bellows are made in tune with the industry standards for meeting the variegated demands of clients. These bellows are durable, resistant to wear & tear, dimensionally accurate and seamless in terms of finish.

We are Leading Manufacturers of high temperature fabric bellows, ceramic fabric bellows, rubber coated fabric bellows, industrial rubber coated fabric bellows, fabric bellows and glass fabric bellows from Vadodara.

Rubber Coated Fabric Bellows

Our company is considered a renowned name in the industry that manufactures, supplies and exports an unlimited selection of Rubber Coated Fabric Bellows. Precisely manufactured at our location, these bellows are of major usage

Flexible Bellows

We are leading manufacturer and Exporter of Metal Bellows in India. We manufacture Metal Bellows from ID 25 MM to ID 2500 MM. We follow latest EJMA Standards and ASME Code for the design, manufacture & quality assurance of Metallic Bellows and Joints.

Black Fabric Bellows

We have set a benchmark in the industry for manufacturing and exporting Black Fabric Bellows. The offered bellows are made in tune with the industry standards for meeting the variegated demands of clients.

Global Bellows & Products

PTFE Bellows

We are well known in the industry for manufacturing and supplying best quality of PTFE Bellows. We always use standard industrial norms while manufacturing the products.

PTFE bellows are used where chemicals & chemical fumes are continuous in contact with the instrument. Our PTFE bellows are made available in various specifications.

These are normally used in chemical industry, labs & instrumentation engineering. Also PTFE bellows are used as compensating elements between engineered parts. They are available for corrosive or hot applications.

Metallic Bellows

The roughed designing Metal Bellow increases the overall durability and reliability. It is crafted to achieve dimensional accuracy that helps in installation process. It is crucial in automotive and diesel engine usage and can tackle the pressure and deflection with ease. Our designing accuracy comes from a perfect amalgam of strength and design to ensure a comprehensive solution.

SS Bellow

SS Bellows are widely used in ducting, vessels and piping for controlling the stress generated due to fluctuating dimensions from thermal expansion or contraction.

Unlike bends and loops, these Bellows require comparatively less space. These Bellows avoid transmission of vibrations in gas, air or water pipelines.

Features:

- Highly Flexible
- Absorb movements and vibrations
- Ensure stress-free pipe installation
- Needs less space

MS Loaded Rubber Bellow

We have marked an individual place in the industry by offering high quality range of Rubber Bellow that is used in machine to prevent dust partials for preventing it from any damage, the offered rubber bellow is well designed under the direction of our professionals using finest quality rubber in adherence with the quality standards.

Features:

- SBR
- Neoprene
- HNBR
- Ethylene Propylene Diene Monomer (EPM, EPDM), etc.

Industrial Metallic Bellow

The roughed designing Metal Bellow increases the overall durability and reliability. It is crafted to achieve dimensional accuracy that helps in installation process.

It is crucial in automotive and diesel engine usage and can tackle the pressure and deflection with ease.

Features:

- Stainless steel for high reliability
- Comprehensive solution for varying usage
- Comes in standard dimensions

Global Bellows & Products

Flanges

We offer an extensive range of high grade Flanges to our customers. Our flanges are sturdy, long lasting and non-corrosive; this can be attributed to the use of high quality raw materials and rigorous quality standards in the product's fabrication process.

Teflon Bellow

We are a unique entity in this industry, actively engaged in offering a premium quality array of Teflon Bellows.

Our organization is specialized in offering a wide range of Teflon PTFE Bellows that is constructed using superior quality material to ensure its strength and durability. These bellows encompass Valve Bellows, Stirrer Bellows and Stuffing Boxes to meet the clients' diversified requirements. Furthermore, our range can be customized in accordance with the specifications detailed by the patrons.

Features:

- High strength
- Fine finish
- Durability

Global Bellows & Products

Hose Pipe

We offer a wide assortment of Hose Pipe for gates that are manufactured using high grade components in compliance with international quality standards. We are the topmost company that deals in the distributor of Hose Pipe Stockist.

These are known for their tremendous quality and durability. Further, these are developed and designed by the leading industry experts who have gained years of experience in this domain.

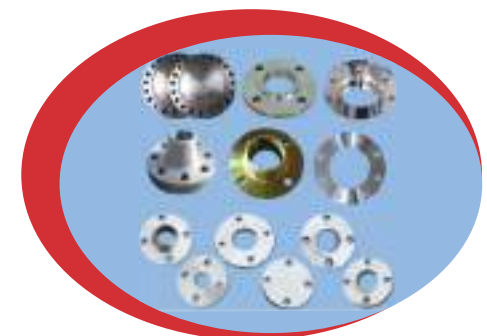

These have sturdy construction and are well polished. In addition to this, these are resistant to corrosion and rust. To add on, these are available at reasonable prices.

SS / MS Pipe Fitting & Flanges

We are an eminent manufacturer and supplier of a wide range of M.S. & S.S. Flanges, Pipe Fittings, M.S. Fittings, S.S. Fittings and M.S. & S.S. Pipe Elbows. These products are precisely manufactured using the cutting-edge technology and high quality raw material in compliance with the set industrial quality standards. The offered range is widely admired by the clients owing to its salient features like sturdy construction, dimensional accuracy, lightweight, easy to install and high durability. Furthermore, we are offering these supreme quality products to our precious clients at the market leading prices.

With sincere intentions to preserve and uplift our reputation as the competent manufacturer and supplier, we bring forth a wide range of M.S. & S.S. Flanges. Available in various sizes and dimensions, these flanges are extensively applicable in chemical, processing plants, oil & gas and petrochemical industries.
